

Guide to using Hashtags and the Leaderboard

Are you interested in tracking your group's additions to the Missing Maps project? This guide will show you how to manually add a group hashtag to your OpenStreetMap (OSM) uploads and how to check those results using the leaderboard.

What are changeset comments?

Changeset comments are one way we track the accomplishments of the Missing Maps project. Every task in the Tasking Manager will have an assortment of these preloaded by the project administrator for their tracking purposes. These are found in two locations. First, they can be found under the Instructions tab on the main project page.

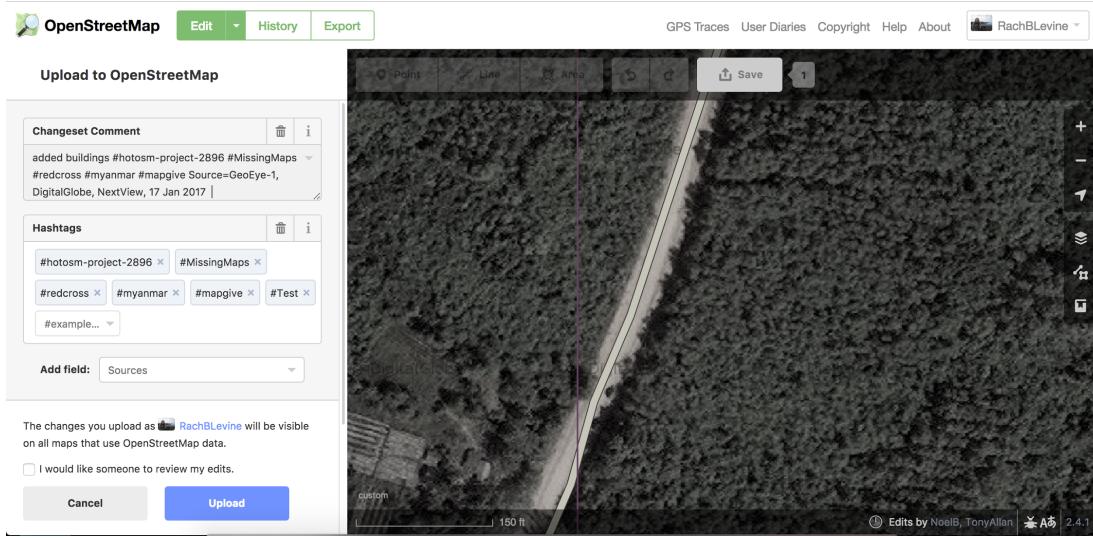

The screenshot shows the HOT Tasking Manager interface. At the top, there are links for HOT Tasking Manager, Contribute, Learn, About, and What is New. To the right are language and login options. Below the header, there are tabs for Instructions (which is selected), Map, Validate, and Questions and Comments. The main content area has a title 'Instructions'. Under this, there is a section for 'Entities to map' with the note 'buildings only'. Below that is a 'Changeset Comment' section containing the text '#photosm-project-3457 Mapping buildings'. Further down are 'Project Specific Notes' with two bullet points: 'Larger Task squares are probably easier mapping' and 'Map using Bing imagery, but you can also use the "DigitalGlobe Standard" layer to help you understand the shapes of the buildings. But only draw buildings using Bing.'. At the bottom left is a 'Buildings' section. On the right side of the screen is a map of a city area with various mapping tasks marked. A large 'ACTIVITY AND STATS' button is located in the top right corner of the map area.

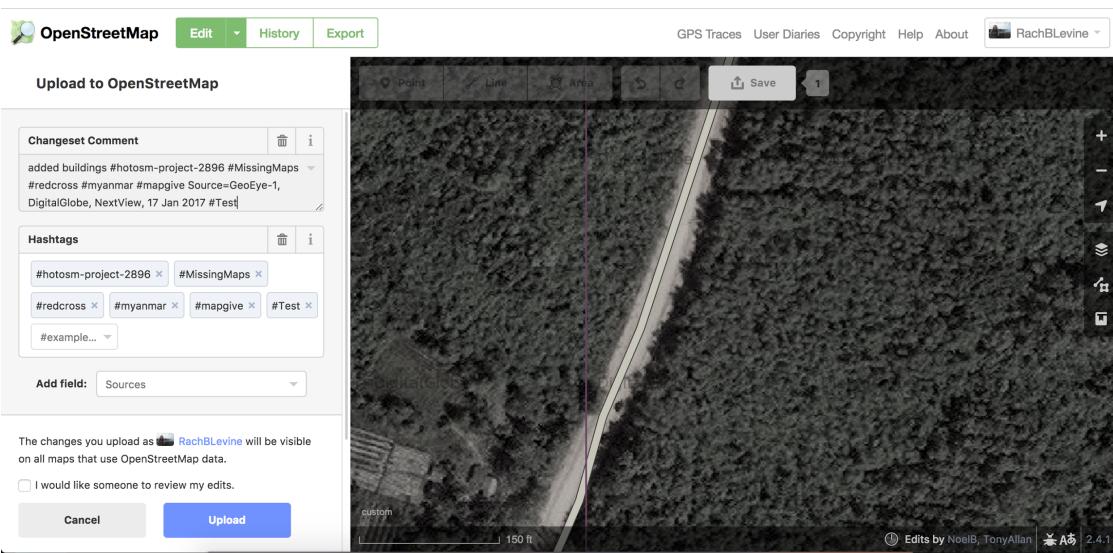

Secondly, they will also be displayed between the save and upload phase of your mapping. This is when you will be able to add your group's hashtag.

Adding a group hashtag:

First, identify a unique name to use as your comment that is representative of your work. Consider things like #MSFTOrgTeam or #MSFTTeamNameGives. Share this hashtag with your entire group ahead of your event. Next, map as you usually would. You will add your hashtag between the Save and Upload phase. Once you are ready to upload your work, click the Save button as you usually would. Notice the changeset comments appear on the top left of your screen.

Now is your chance to manually type in your chosen hashtag. All you have to do is type it in after the preloaded comments.

To finish committing your edits to OSM, click the Upload button as you normally would. Your hashtag will now autoload for the rest of your time mapping that square, however, it's always a good idea to double check! **Note: Once you move on to your next square you will have to re-add the comment using the same steps above.**

Accessing the Leaderboard:

To check your results, please go to the [Missing Maps](http://www.missingmaps.org) website. On the top right you will see a menu for "Discover". In the drop-down select "Leaderboards".

The screenshot shows the homepage of www.missingmaps.org. At the top, there's a navigation bar with links for CONTRIBUTE, EVENTS, ABOUT, BLOG, DISCOVER (which is currently selected), USER PROFILES, LEADERBOARDS, and OSMSTATS. Below the navigation is a large graphic of four stylized human figures standing on a map. The text "Putting the World's Vulnerable People on the Map" is centered below the graphic. A paragraph explains the project's mission: "Each year, disasters around the world kill nearly 100,000 and affect or displace 200 million people. Many of the places where these disasters occur are literally 'missing' from any map and first responders lack the information to make valuable decisions regarding relief efforts. Missing Maps is an open, collaborative project in which you can help to map areas where humanitarian organisations are trying to meet the needs of vulnerable people." A blue "GET INVOLVED" button is located at the bottom of this section. The URL "www.missingmaps.org/leaderboards/" is visible at the very bottom of the page.

The results page for the entire Missing Maps project will load first. This will show you how many buildings the community has added and how many edits they have mapped!

The screenshot shows the "LEADERBOARD missingmaps" page. The top navigation bar is identical to the homepage. The main content area features a "CURRENT LEADER" box for the user "missingmaps" with a total of 12,872,211 Total Edits. Below this, two other users are listed: 11,653,606 Buildings and 1,269,573 km Roads. A note at the bottom of the box states "last commit: 5 minutes ago". To the right of the box, a small icon indicates the page was refreshed today at 12:47 pm.

If you scroll down, you will be able to see the top mappers. You can sort this list by total edits, buildings mapped, km of roads mapped, or by when the user last mapped.

RANK	NAME ‡	TEAM	TOTAL EDITS ↑	BUILDINGS ‡	KM OF ROAD ‡	LAST UPDATE ‡
1	piaco_dk	missingmaps	169987	146278	24652.5 km	6 days ago
2	armasari	missingmaps	154382	145919	30884.3 km	7 hours ago
3	mmahmud	missingmaps	153318	143961	8341.7 km	7 hours ago
4	Fatisya Ilani Yusuf	missingmaps	130215	126515	11166.3 km	6 days ago
5	Sawan Shariar	missingmaps	125551	120000	2725.1 km	7 days ago
6	Ataur Rahman Shaheen	missingmaps	123361	119964	1690.3 km	6 hours ago
7	silviasdw	missingmaps	122748	119354	9464.9 km	7 days ago
8	danielzyt	missingmaps	122239	121192	2523.2 km	18 days ago
9	Dinar Adlatma	missingmaps	121259	120187	308.1 km	8 hours ago

Checking your results:

To add your group's hashtag to the display, click the "Add Competitor" button and type in your hashtag. You do not have to add the hashtag symbol (#) here.

Buildings km Roads

last commit: 4 minutes ago

You will now see results for your group as well as the results for the overall program.

The screenshot shows a comparison between two projects: 'missingmaps' and 'test'. The 'missingmaps' team is the current leader, having made 12,872,548 total edits, with 11,653,894 Buildings and 1,269,623 km Roads. The 'test' team has made 32 total edits, with 0 Buildings and 37 km Roads. Both teams' last commits were made 4 minutes ago.

Team	Total Edits	Buildings	Km Roads
missingmaps	12,872,548	11,653,894	1,269,623
test	32	0	37

You will probably want to see results for only your group. To remove the overall program results, click the three dots on the top right corner of the Missing Maps totals box and click “Remove” to hide this group. You will now be able to scroll down to see individual results for only your group.

The screenshot shows the 'test' project's page. The 'LEADERBOARD' tab is active, displaying a single entry for 'yopaseopor' who has made 30 total edits, 0 buildings, and 10.2 km roads, with the last update being 7 days ago. The 'MAP VIEW' tab is also present.

RANK	NAME	TOTAL EDITS	BUILDINGS	KM OF ROAD	LAST UPDATE
1	yopaseopor	30	0	10.2 km	7 days ago
2	RachBLevine	2	0	26.8 km	42 minutes ago

You can compare three changeset comments at a time. To add additional changeset comments to compare, follow the guidelines above. Happy Mapping!
